Dear Phil,

This is in reference to me taking time to let you and your company know how our company is appreciating the product we have been using .I am the Nutrition Manager at Friend's of Elder Citizen in Palacios,Texas . I am a current user of one of your products, the SHURFLOOR and it is a great product .It is cost effective and it last at least four month because of the small potion require to mix the solution. It is a product that I would recommend to other companies if in the market for a cleaning solution for tile .It can also be used to pour down your floor drains as it is bio-degradable and it prevent the odors from backing up . I take this time for thanking you for introducing us to such a great product.

Sincerely,

Signature
